HIGHER CALL IS ACCEPTED.

Rev. J. F. Vines to Take Charge of Central Baptist Church at Chattanooga.

EXCELLENT WORK DONE HERE.

Rev. J. F. Vines' resignation as pastor of the Baptist church of this city and of the Goshen Baptist church at Glendale will go into effect October 1. He has accepted a call from the Central Baptist church at Chattanooga, Tenn., which has a membership of about 400 and is one of the best fields in that State. The call was received by Rev. Vines on August 23 and he accepted it as it pays a higher salary than the two pastorate he now holds.

Rev. Vines tendered his resignation as pastor of the Goshen Baptist church on August 30 and on last Friday evening he announced his resignation as pastor of the Baptist church of this city. He will preach at Glendale on September 13 and 17 and will deliver his last sermon in this city on September 30.

It is with extreme regret that Rev. Vines' two congregations have received the news of his resignation, as they are loath to give him up. He has done most excellent work for both churches and has won the esteem and friendship of the members of his congregations and of other denominations as well. While all wish they could retain him, yet they are glad that he has been honored with a higher call and wish him every success and encouragement in his new field.

Rev. Vines took charge of the local Baptist church in June, 1901, and of the church at Glendale in June, 1902, as the successor of Rev. W. B. Rutledge. He came to this city from the West End Baptist church at Ashville, N. C., to which Rev. Rutledge succeeded him, and attended the Baptist Theological Seminary until June of this year, when he graduated. While Rev. Vines has had charge of the church at Glendale nearly 100 new members have united with the church and a beautiful house of worship has been built and is almost paid for. Good work in the local church also has been done. The remainder of the debt on the parsonage has been liquidated, a fine vocal for the church has been purchased and the membership increased by more than fifty. Besides assisting in the local church, Rev. Vines took a vigorous and most helping part in Cloverport's local option fight last year and in all movements inaugurated for the public good. He is affable and interesting talker, an able expositor of the Scriptures and a minister of energy and power. For a minister just out of the Seminary his record has been most excellent and his every success is well deserved.

In social, as well as religious circles, both Rev. and Mrs. Vines have been popular and the good wishes of the citizens of Cloverport follow them to their new home in the South.

He has been a member of the association the last five years and has attended all of the annual meetings during that time. Last year he read a valuable and interesting paper, on the subject of cleaning passenger cars, before the convention. His ideas were original and have been adopted by a number of other painters. The paper was published in the News last week and Mr. McCracken was highly complimented on its merits.

While Mr. McCracken is in Chicago Mrs. McCracken and her children will be with her sisters, Mrs. Eliza Roth and Mrs. Walter Wayne, of Cincinnati, formerly of this city.

The steamers John W. Thomas and Henry Harley have taken the places of the Morning Star and the Tell City. River men have had better luck this year than last year. It will be remembered that Mr. Jolly was struck by a train last May, between Glasgow and Irvington, and almost instantly killed. The train was a special, carrying Knight Templars to Owensboro. The petition alleges that his death was caused by the gross negligence, carelessness and reckless conduct of the agents and servants of the railroad, and asks for damages in the sum of \$25,000. Judgment Given by Judge Wills Against Perfect Combustion Co.

OTHER CASE IS DISMISSED.

The suits of twenty-nine former employees of the Patton brick yard against the Perfect Combustion Co., of America, and the Central Clay Product Co. for wages for labor performed, were tried before Judge Judge Wills Monday afternoon. A number of witnesses testified and the trial consumed two hours. Judge Wills dismissed the case against the Central Clay Product Co., without prejudice and gave judgment to the plaintiffs against the Perfect Combustion Co., of America. If execution has to be levied, it will be on the Brice railroad tunnel kiln at the Patton yard, as that is the only property there belonging to that company.

Geo. C. Patton, nominal president of the Central Clay Product Co., was present as its representative and had V. G. Babbage for his counsel. In the evidence it came out that E. C. Brice had sole control of the brick yard after May 13, as president of the Perfect Combustion Co., of America, and that the claims against the two companies were for labor performed since that date. To expedite matters, Geo. Brown and H. G. Murray, attorneys for the plaintiffs, admitted that Brice had employed some of the plaintiffs and tried to prove in their argument that Mr. Patton was the agent of Brice's company, in order to get the Perfect Combustion Co., into court, as it had no representative present. Mr. Patton stated that he was not the company's agent, but, if by law, Mr. Brown could show that he had been, though unwittingly on his part, he would be willing, as it was his desire also to get Brice's company into court. The case then rested with the court and the above decision was rendered.

AT THE ENCAMPMENT.

Women Will be Barred As Guests--2nd and 3rd State Regiments to Participate.

There will be no women at the camp of combined maneuvers at West Point, as guests. Gen. Bates has issued an order to this effect, and has so informed Adjutant General Murray.

At a conference between Gen. Murray and the leading officers of the state guard it was decided to take the Second and Third regiments and the Louisville battalion on the West Point encampment. They will go in camp on September 30.

Messrs. D. P. Curry and C. B. Norton, of the Commercial Club, of Louisville, have made a proposition to Capt. W. W. Hite that several steamers be stationed in the river near the West Point maneuver grounds. These boats will be used as floating hotels at which visitors to the maneuvers can obtain board.

The first soldiers who will participate in the maneuvers arrived at West Point last week and more will be arriving every week. Most of the necessary preparations have been made for them and the camp will be in readiness when they arrive. The encampment of the regular soldiers will be held from September 25 to October 1, and of the militia from September 30 to October 10. There will be small details forwarded for preliminary work in each department, but no considerable body of troops is expected before September 30. The two battalions of artillery and four companies of infantry from Fort Sheridan, near Chicago, will start about September 15, and march through to West Point.

An earnest effort will be made by the citizens of Louisville and West Point to have President Roosevelt spend several days at the maneuvers.

The Genuine vs. Counterfeits.

The genuine is always better than a counterfeit, but the truth of this statement is never more forcibly realized or more thoroughly appreciated than when you compare the genuine DeWitt's Witch Hazel Salve with the many counterfeits and worthless substitutes that are on the market. W. S. Ledbetter, of Shreveport, La., says: "After using numerous other remedies without benefit, one box of DeWitt's Witch Hazel Salve cured me." For blind, bleeding, itching and protruding piles no remedy is equal to DeWitt's Witch Hazel Salve. Sold by All Druggists.

Sounds the keynote of the Democratic State Campaign.

Masterly Speech by Kentucky's Executive at Winchester, September 5th.

The Following is the Text of Gov. Beckham's Opening Speech on Saturday.

I welcome the opportunity which this occasion presents to me, and to the people of this state, to stand before you, and to speak to you on the subject of the Democratic State Campaign. It is a subject which has been before you for some time, and which has been the subject of much discussion and debate. It is a subject which has been the subject of much discussion and debate. It is a subject which has been the subject of much discussion and debate.

On our part, I think that the contest should be an aggressive, not a defensive, one. I think that the people should be acquainted with the issues involved, and that the full light of public view should be thrown upon their respective records, and let the people judge between them. I think that the policy which we seek, which we demand, and which we intend to carry out, is a policy which is based upon a quiet and secret campaign, relying upon the power of a big corporation, and upon the power of a big corporation, and upon the power of a big corporation.

Under that banner we shall march to the victory, and we shall march to the victory, and we shall march to the victory. We shall march to the victory, and we shall march to the victory, and we shall march to the victory. We shall march to the victory, and we shall march to the victory, and we shall march to the victory.

fect until the beginning of the next menstruation. It happened consequently that when we came into power in 1900, the reformer began, and the first two years of our administration we had to run on a 45 cent rate level of 25 cent rate, which our republic produced.

On our part, I think that the contest should be an aggressive, not a defensive, one. I think that the people should be acquainted with the issues involved, and that the full light of public view should be thrown upon their respective records, and let the people judge between them. I think that the policy which we seek, which we demand, and which we intend to carry out, is a policy which is based upon a quiet and secret campaign, relying upon the power of a big corporation, and upon the power of a big corporation, and upon the power of a big corporation.

Under that banner we shall march to the victory, and we shall march to the victory, and we shall march to the victory. We shall march to the victory, and we shall march to the victory, and we shall march to the victory. We shall march to the victory, and we shall march to the victory, and we shall march to the victory.

ANNOUNCEMENTS.

BRECKENRIDGE COUNTY

For Circuit Court Clerk Breckenridge
County.

W. SHERMAN BALL,
Nominée of the Republican Party.

For Representative of Breckenridge
County.

MAT. P. PAYNE,
Nominée of the Republican Party.

The wickets of our factories make
sweet music on the air.

Belknap, Ball, McCorman and business.
How does this combination strike you?

Our pockets are not very full of
money but our soul is full of enthusiasm
for Cloverport and for Breckenridge
county. It's not the men with
pockets full of money that build up
towns and communities, but it's the
men with faith and little money, and
who are not afraid to invest it.

We print the opening speeches of
both candidates for Governor in this
issue. Read and form your opinions
as to the fitness of the two men for
the place. If you want a business
man's government of State affairs it
seems to us you can get that kind of
a government in Col. Belknap or if
you want a government run on purely
political lines Governor Beckham is
your man.

Prof. Oelze for the first two opening
days made a fine impression on
pupils and patrons. Our advice to
the pupils is to do what he tells you
to do, and do it at once, and in order.
The patrons can do much to help him
and the school along. Visit the school,
say a good word for it and the teacher.
There is not a teacher but what will
do his or her best for the success of
both pupil and school. They should
have the hearty co-operation of the
parents.

Dr. Milton Board, of Hardinsburg,
was in the city Tuesday. He said
politics was very quiet around the
capital city. That the campaign had
not opened up yet but would in a
short while. He spoke very enthusiastically
of the Democratic outlook. He said
it was only a question of
majorities. Breckenridge county, he
said, would go Democratic by 150. He
said his campaign committee was in
splendid shape. Had all the money
they wanted to do business on, so
was perfectly easy along that line.

CONSTITUTIONAL AMENDMENT

To Be Voted On at the November
Election.

CHAPTER 50.

An act to provide for an amendment
to Section 151 of the Constitution of
Kentucky.

"The General Assembly may, by
general laws only, authorize CITIES
OR TOWNS OF ANY CLASS to pro-
vide for taxation for municipal pur-
poses, on personal property, tangible
and intangible, based on income,
license or franchise, in lieu of an
ad valorem tax thereon;
"Provided, cities of the first class
shall not be authorized to omit the
imposition of an ad valorem tax on
such property of any steam railroad,
street railway, ferry, bridge, gas,
water, heating, telegraph, telephone,
electric light or electric power com-
pany."

Big Campaign Opening.

Plans are being made by the Repub-
lican party for a great demonstration
at the formal opening of the campaign
by Col. Belknap at Munfordsville Sat-
urday. Jas. Janter, the famous bar-
ber of Lexington, has been engaged to
give the barbers on the occasion
a special train of representative
Republicans, 500 strong, will go from
Louisville and thousands of people will
attend from adjoining counties. Gen.
Simon B. Buckner will make the intro-
ductory speech, in which he will out-
line the objections to the present ad-
ministration. Col. Morris B. Belknap,
the candidate for Governor, will then
address the crowd.

Delivery Steadily Improving.

More tomatoes were packed at the
Polk Packing Company's factory last
week than the week before last. The
amount of the fruit delivered has been
increasing daily since the first of it
was brought in by the farmers. Up
until last Thursday 35,000 cans had

The great number of dyspeptics is
increasing daily. This is due to hur-
ried eating and lack of care in select-
ing proper food.

There is nothing more effective to
the run down digestive organs than
pure pepsin, and while pepsin alone
corrects the overworked digestive
organs, a tonic, such as pure port
wine, is also necessary to keep them
in this condition.

Walden, the recognized Port to be
found in all drug stores, combines in
exact proportions the purest pepsin
and richest port wine. It is highly
recommended by thoughtful physi-
cians.—For sale by A. R. Fisher.

COL. BELKNAP

And Judge W. M. Beckner Greeted by Over 9,000 people at Barboursville.

Both Talk Along Commercial Lines And are Cheered by The Big Crowds.

Col. Belknap Outlines His Policy Along Lines of Supply And Demand.

Barboursville, Ky., Sept. 3.—An immense crowd, numbering over 9,000 people, was present here today to welcome Col. Morris B. Belknap and Judge W. M. Beckner, Republican nominees respectively for Governor and Attorney General.

Col. Belknap appeared on the streets early this morning, and wherever he went he was quickly surrounded by a crowd eager to meet him. In company with William Carson Black, son of John Black, Col. Belknap visited all the business men in town and became acquainted with those from the country.

Throng at Fair Grounds. At 10:30 o'clock the Belknap party went to the fair grounds, where the great throng of people had gathered to hear Col. Belknap speak. When the party entered the grounds the people swarmed into the amphitheater until it was packed to overflowing. Several thousand stood in the hot sun during the speaking. Mr. Black made a short speech. He spoke in high terms of Col. Belknap and Judge Beckner. He was cheered frequently by the enthusiastic crowd.

Col. Belknap began speaking at 11 o'clock. When he stepped out before the crowd cheers went up all over the grounds.

"We want to see and hear our next Governor," people shouted every where.

Col. Belknap's Speech

Col. Belknap was repeatedly cheered. He spoke as follows:

It is a great pleasure to find myself once more facing the people of the Kentucky mountains. My cordial reception at London last week made me more than anxious to return among those I had the pleasure of meeting there, as well as to make the acquaintance of others. I feel that I have been a Kentuckian long enough, and to interested in Kentucky affairs, to suffer extent, to be "home folks" with you all. We recognize that the bond which draws us together this time is one of mutual interest. It is not one that requires explanation by any subtle sophistry of language or any tedious exposition of abstract principles.

I am not in the position of an office seeker, for I already have a job, and it is not a small one. I am in the position of a man who has ambitions (as I think any true Kentuckian may be) to gain such honor as may come from serving my State along the honest commercial lines of supply and demand.

I claim there is a demand for an administration of our public affairs as a man would manage his private business. I am familiar with the requirements of such a business, and am not afraid of the responsibility and the work that it entails.

We all possess a sentimental attachment for this good old State of ours. We feel that the best sort of government is none too good for her, and the effort now is a plain and simple one, that is, to put her in the hands of those who will cherish and honor her with the same lofty spirit that a man shows to the woman to whom he is devoted.

But, you say, commercially considered, things have not been bad in Kentucky for the past few years. Thanks to the management of our national affairs that is true. But we have, after all received only a small proportion of what I contend is due us. Where we have got our thousands, our neighbors have reaped their tens of thousands, with natural advantages no greater than ours. In studying the causes of our economic ills, we find, among other things, the failure to get the profit on the higher grades of merchandise manufactured from products that we ourselves furnish, whose convenience takes place in other States under more favorable conditions.

Let me give you a succinct example. In every car load of coal we ship out of this section there are two general profits, an actual and a potential one. The actual one is that paid to us by the purchaser of the coal. The potential one is the profit which the purchaser will reap upon converting that coal into steam. The chances are he

is not buying it to make a bonfire. He puts it under a steam boiler, and the result is possibly a washing machine, a motor, an electric motor, or one of many articles of finished merchandise. The profit in making these articles, if the manufacturer understands his business, is far greater than the profit the miner gets on his coal. This larger profit Kentucky does not get.

Thousands Where Others Get Ten Fold.

Let me use another example. A tree is standing on our hills. It is worth some money. Cut it down—it is worth the original amount plus the cost of felling it. Transport it to the saw mill and cut it into lumber—two more profits added to it. It is now a plank and has an actual profit composed of four minor profits but it also possesses, as in the case of the car lot of coal, a potential profit greater than all of these four. That is the possibility of being converted into furniture, undergoing a transformation that will make it totally unrecognizable to me and yet sold back to me at many times the price at which we sold it to the manufacturer who converted it. Kentucky does not get this profit, and it is this loss that makes true the statement made at the beginning of the argument that we get but thousands where others get their tens of thousands.

Why We Get the Cheese Parings.

Now, why do we get the only cheese parings? Because the big profit is gathered in by a class of men who constitute what is known as manufacturing talent. These men have peculiar characteristics of their own. They are not lawyers, they are not politicians, and as a rule they consider that the less they have to do with either of these classes of men the better off they are. Their aim in life is to establish a home where they can live happily with their wives and raise their families. They are students men and carefully consider the conditions where they can live to the best advantage. They naturally want to have advantages for their wives and children in the shape of the best intellectual opportunities, especially common schools and personal safety. An honest expenditure of public funds and honest conduct of their families weigh heavily in deciding with them where to locate.

These people are possessed of means, which they invest in permanent form in the shape of factories and homes, and in making these investments they carefully consider the possibility of their efforts to build up their surroundings, increasing the value of their investments. Where they buy a home for \$2,500 they hope in the course of ten years to find it in the midst of a flourishing town so that they can realize a profit.

We know very well that these conditions do not exist in Kentucky today. We know very well that they must exist before we can hope to be the "Commonwealth which our natural advantages entitle us to be."

Pointing the Way.

The problem then is: How can these conditions be brought about? Perhaps you will say that now comes the time for the candidate to assert himself and say: "By turning out the men that are at present in office and putting us in." That would be the old political route—a roadway that has been cut into deep ruts by the political traffic of the past. In many cases it has proved most effective. As to whether it will this fall or not, I do not know. But I would rather see the candidate to a recognition of our own individual interest. It is no longer a case of what are "you" going to do about it, but what are "we" going to do about it? Not what will my neighbor do, but what must I do? Not what the candidate at the head or at the bottom of the ticket will do, but how will we make the candidate serve the good of the State after we have given him the office?

A member of our family is taken suddenly ill and we take him to the drug store. Perhaps the road is unknown to us. We come to a point where the road forks. Shall we take the right or the wrong one? The decision means life or death perhaps. A man is standing there who can tell us. Would we stop to inquire his name as he comes to the fork? Why not use the same common sense in our government? All we require is the directing hand to the place where we may procure the necessary restoratives. These we ourselves must apply to the patient.

Faith in Kentucky.

I have, as you know, great faith in the State of Kentucky. I realize that by an unfortunate series of events

she has gotten herself on the list to be "knocked," and I want to see that classification changed.

I have met during my brief campaign a sufficient number of the strong conservative element of our State to realize that they are with me. It is this which I have termed the new Kentucky spirit in the "old Kentucky home." It establishes the important fact that the necessary conditions for our new birth exists, and I beg of you that you arise and acquaint yourselves like men—not for my sake, but for your own sake.

Grasp the Opportunities.

Into other hands are passing opportunities which we might just as well grasp as not. They mean days of great prosperity and comfort to our families. They mean peace and justice within our borders. They mean overcoming evil with good and doing the fair thing by our fellow man. It is not one man's work, but the work of us all.

Within the past year into the departments of our National Government has been merged a new one of "Commerce." We are not advancing with the general sentiment when we incorporate the commercial idea in our own State affairs.

Unless there is some unseen law in the logic of the situation, Kentucky affairs will probably be made orderly arrangement which good business methods demand. We have enough law. In fact, we would get along better than we do if we kept the Ten Commandments just as transcribed upon the tables of stone. Our standing in the world would be very much better if we would make a beginning by keeping the sixth, and, as Judge Humphrey expressed it, "put the stamp of Cain upon whomsoever violated it, so that henceforth he should be an outcast in our midst."

Making laws does not make a nation. We must have the co-ordinate branches of the judiciary and the executive. They form horse, cart and harness, a combination which must be effective individually to carry us forward. Rotten spokes, a girthing tied with a paper string, or a horse without legs, any one of them will let us up transportation facilities. I beg of you that you see to it that one as good as the other, and all are there. There is no reason why they should not be so except our own indifference, and that we must overcome.

Get Value Received for Taxes.

It is an old commercial saw that "goods will hang, and half sold." When we pay taxes we are supposed to buy government. If we don't get value received for our taxes, we are in a bad way. We will go broke just as surely as the merchant who pays too much for his goods will eventually close his doors.

We must take out our pencils and figure up the amount of taxes we have to pay, and then in the next column add what we get for them. If we find that for our hard earned dollars we are simply feeding a lot of grafters when our State is crying out for better buildings, better schools and better institutions, then the buying proposition is going against us, and the day of trouble is at hand.

Business Talk.

In olden times, when the traveling salesman, or drummer, was a novelty on the road, he was generally selected by his employer for his facility in carrying a good story from one store to another. With this coin he has many times bought orders at good prices when all other inducements have failed. This style of drummer has almost disappeared, and those of us who employ these valuable assistants in our business, realize that he sells more goods who opens up his line of goods on the counters of the merchant and talks business. That is what I have tried to do today—simply to talk business to you. I believe that the goods I have laid before you are worth having—that the people demand them, and that the patterns are at least sufficiently novel to prove as attractive as their inherent qualities will prove lasting.

Beckner on Commercialism.

When Belknap finished John G. Matthews introduced Judge Beckner. Again the crowd cheered. Judge Beckner made one of his characteristic speeches. He told why he left the Democratic for the Republican party and its principles. He touched on commercialism, and said the party in power did not want to see the State developed and new people come in. He spoke at length on the neglect to provide funds for the St. Louis Exposition. He said the day was coming when people would want to stay in Kentucky instead of wanting to leave, as many do now.

Judge Beckner finished at 12:30 o'clock, and the party went at once to the dining room, where they partook of dinner. Just after dinner the party visited the many attractions on the grounds. Col. Belknap shaking hands all the time. When the races were called the party went to the band stand and met all horsemen

Hon. E. E. Willard. Judge of District Court Plainly Speaks His Mind.

It is with pleasure that I give my hearty endorsement to Dr. Pierce's Golden Medical Discovery. It is the most successful remedy that I know of for the weakened condition of the digestive organs which excessive heat or overwork sometimes brings, causing indigestion, sick headache, a disagreeable or bitter taste in the mouth, sleepless nights and a complication of unnatural conditions, making one feel sick all over. Your remedy is scientifically prepared and well calculated to renovate the entire system, cleansing and vitalizing the blood and assisting the stomach to perfect assimilation of the food, which will soon restore health and harmony.

Sincerely yours, E. E. Willard.

Judge of 11th District, Duval County, Florida.

The "Golden Medical Discovery" restores the long lost appetite; it strengthens the weak stomach and corrects the impaired digestion; it promotes the flow of digestive juices and facilitates the assimilation of the life-giving elements of the food into the blood. When the blood is pure and rich, old inert tissues are torn down, carried off and excreted, and new, healthy muscular tissues replace them. In this way it puts on healthy flesh up to the normal weight and fortifies one against all disease-breeding germs. It allays

on the grounds.

Biggest Known Crowd.

Special trains ran all day, but the service was inadequate to transport the people. Late Belknap parties came from all the neighboring towns, 300 from Pineville alone, and large numbers from the neck counties of Clay, Leslie and Harlan. Today's meeting is admitted to be the greatest ever held in the county. At 3:30 o'clock the Belknap party left the fair grounds for the depot. They left on the 4:30 o'clock train for Middleboro. They will go to Somerset Friday. Campbell county fair Saturday and to Covington Monday.

Cancer Cured by Blood Balm—All Skin and Blood Diseases Cured.

Mrs. M. L. Adams, Fredonia, Ala., took Botanic Blood Balm which effectually cured an eating cancer of the nose and face. The sore healed up perfectly. Many doctors had given up her case as hopeless. Hundreds of cases of cancer, eating sores, suppurating swellings, etc., have been cured by Blood Balm. Among others, Mrs. B. M. Gurney, Warrior Stand, Ala., after nose and lip were raw as beef, with offensive discharges from the eating sores. Doctors advised cutting, but it failed. Blood Balm healed the sore, and Mrs. Gurney is as well as ever. Botanic Blood Balm also cures eczema, itching humors, scabs and scales, bone pains, ulcers, offensive pimples, blood poison, carbuncles, scrofula, risings and bumps on the skin and all blood troubles. Drugists, \$1.00 per large bottle. Sample of Botanic Blood Balm free and prepaid by writing Blood Balm Co., Atlanta, Ga. Describe trouble and send special medical advice sent in sealed letter. It is certainly worth while investigating such a remarkable remedy, as Botanic Blood Balm cures the most awful, worst and most deep-seated blood diseases.

Bright Prospects for Fair.

The Harlan county fair, which opened at Elizabethtown yesterday, promises to excel all former fairs held in that city, both in exhibits and attendance. The fair, for the first time in ten years, does not conflict with the Bowling Green fair, and for the first time in its history there will be no other fairs held in Kentucky during the same week. The fair will continue until Friday.

\$3,000 Forfeit!

Will be cheerfully paid, in lawful money of the United States, by the World's Dispensary Medical Association, of Buffalo, N. Y., proprietors of Dr. Pierce's Golden Medical Discovery, if they cannot show the original statement and signature of every testimonial among the thousands which they are constantly publishing attesting the superior curative properties of their several medicines, and thus proving the genuineness and reliability of all the multitude of testimonials volunteered by grateful people, in their behalf.

"I feel it my duty to write you as I have received so much benefit from the use of your medicines," says Mrs. E. Sandoz, of Elton, Iowa. "I was troubled with torpid liver, indigestion, and nervous prostration, for about eighteen months and lost strength so that I was unable to do any work. Consulted several doctors but without receiving help. They advised me to have an operation for gall stones, which I thought would be the very worst I would take. I then sat down and wrote to you for advice, some five or six months ago, and have since been taking your 'Golden Medical Discovery.' Can now say that I am well and able to do all my work besides doing lots of weaving. In the last two months I have woven about four hundred yards of carpet and feel now that I will keep on with it as I like the weaving business so well. I took only eight bottles of the 'Golden Medical Discovery' and some of Dr. Pierce's Pleasant Pellets."

"I will be glad if I can say anything to those who are suffering as I did."

"I was taken sick nine years ago with fever," writes Mr. M. M. Wardwell, of Linwood, Leavenworth Co., Kans. "Had the doctor and he broke up the fever all right, but I took diarrhea right away; he couldn't cure it and it became chronic, and then he gave up the case. I got so weak with it and had piles so badly I couldn't lie down nor hardly sit up. Was that way two or three months; thought I would never be well again, but picked up one of Dr. Pierce's Menstrual Regulators. I thought it hit my case. We had a bottle of Dr. Pierce's Golden Medical Discovery in the house that was got for mother. You recommended it for catarrh of the stomach, so I began taking it. The one bottle nearly cured me. I got two bottles next time and took one and one-half and was well. I haven't been bothered with diarrhea since."

A FEW PENNIES will pay the expense of mailing Dr. Pierce's Common Sense Medical Advice. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume.

A good liniment and one that is fast becoming a favorite of not a household necessity is Chamberlain's Pain Balm. By applying it promptly to a cut, bruise or burn it allays the pain and causes the injury to heal in about one-third the time usually required, and as it is an antiseptic it prevents any danger of blood poisoning. When Pain Balm is kept at hand a sprain may be treated before inflammation sets in, which insures a quick recovery. For sale by Short & Haynes.
